

Mission Statement

The purpose of this association is to uplift and enrich the lives of Caribbean nationals. Our focus is primarily around education—from our members to Caribbean community outreach programs—that builds literacy at all levels. Our members get involved with and support projects that have education-related components to them.

In light of this, the association will:

- Provide a forum for Caribbean Professionals to share experiences
- Engage in activities that focus on wealth building, professional and personal development, and community enrichment programs
- Provide opportunities for members to understand how to better assimilate within a foreign society
- Provide educational development resources to schools in Caribbean countries and to Caribbean communities within the U.S.
- Obtain the required human and other resources to achieve the association's objectives

Support and cooperate with persons and groups already engaged in similar activities

Our Perspective

There is a large number of people from the Caribbean living in the United States, especially the NY-NJ-CT metropolitan area, who due to lack of knowledge and resources, have not been able to fully realize their potential.

Our Mission

To provide a forum for Caribbean professionals to share experiences, understand economic potentials, and gain a better perspective of the American culture, thereby enriching their quality of life and better integrate within the U.S. society while getting involved in Caribbean community enrichment programs.

If you are interested in the organization, please contact us via email or regular post. Read our [By-Laws](#) for more information.
